Banor Capital gets even more responsible

Banor Capital (in the picture the CEO, Giacomo Mergoni) announces that has signed the United Nations-supported Principles for Responsible Investment (PRI).

The PRI initiative is recognized as the leading global network of asset managers, owners and service providers working together to put responsible investment into practice. The principles, which are voluntary, aim to provide a framework for integrating environmental, social and corporate governance (ESG) considerations into investment decision-making and ownership practices.

The PRI network of international signatories works together to implement a set of voluntary and aspirational principles that provide a framework for integrating ESG factors into investment analysis and ownership practices. These factors are aligned with investors' goals and values and tailored to each organization's investment strategy, approach and resources.
